

2026-2027

Product

Overview

The integrated driver makes sure that the track can be connected directly to the mains

REDUCED GLARE (<UGR10)

To reduce glare, the Pointer Spot's small light hole is recessed as far into the long tube as possible. Ideal for situations when multiple rail spots are used to illuminate the entire room.

Lighting for Ceiling Solutions

L4CS

OTHER COLLECTIONS

EASY INSTALLATION AND DURABILITY

This collection consists of a number of specific fixtures that can be integrated into various ceiling materials. Everything is equipped with Plug & Play systems for easy installation on a 230V socket. In addition, the collection contains various recessed spotlights and panels.

ILLUXTRON

Trade products

The commercial collection serves as a complementary range to our own Illuxtron, L4CS, and MIYO. These fixtures were not developed by Illuxtron, but have been carefully selected to offer a cost-effective option. They are suitable for projects requiring a cost-efficient solution, or to complement our main collections and provide a comprehensive solution.

Custom-made lighting

We solve customer problems by making customised luminaires. MIYO can do that competitively because we try to use as many existing Illuxtron components as possible. We pick and combine and only have to make what we don't have in stock.

MIYO

Make it your own.

About us

FAST DELIVERY

Thanks to efficient production planning and a well-managed inventory, many products are available with short delivery times. Standard products are typically delivered within 10 working days for orders of up to 100 pieces.

PROJECT SUPPORT

Bulk packaging, room-by-room labelling, and free GST18 plugs are all options for product delivery.

7-YEAR WARRANTY

Illuxtron lighting products are designed for long-term reliability and come with a 7-year manufacturer's warranty. When used as intended, we guarantee our products are free from material, design and manufacturing defects.

100% DUTCH DEVELOPMENT

Every Illuxtron luminaire is developed by our own R&D team in the Netherlands. From concept and engineering to continuous product improvements, we design and refine our products with a strong focus on quality, innovation and ease of installation.

CUSTOMER SUPPORT

Our customer support team is here to assist you throughout every stage of your project. Whether you have technical questions, need product information or require order support, we're happy to help.
